Global Client Director at Adform with 10+ years turning advertising technology, measurement and data into measurable growth for global brands. I own the relationship, the commercials and the technical setup for global enterprise advertisers in automotive, consumer technology and consumer goods: onboardings, global RFPs, and the tracking, identity and attribution infrastructure underneath their media. Earlier, as Senior National Account Manager at Procter & Gamble, I carried €10M+ P&L and grew organic sales 26% against a 2% target. Mechanical engineer by training, MBA by choice, commercial operator by instinct, and AI-native by default: a multi-model toolchain does the analysis, documentation and QA so my time goes to clients and decisions.

CORE CAPABILITIES

Solutions architecture

Ad serving, DSP / SSP / DMP, clean rooms, server-side tagging and consent, identity and ID resolution, cookieless 1P / 2P / 3P data strategy, multi-touch attribution and Media Mix Modelling.

Global client leadership

End-to-end ownership of enterprise relationships across EU and global markets; onboarding, global RFP response, cross-functional delivery with agency partners; team direction and mentoring.

Commercial growth

Technical-to-revenue translation: needs assessments that cut wasted media spend, financial models that quantify platform value, P&L ownership and account growth.

HOW I WORK · AI-NATIVE BY DEFAULT

- **Multi-model toolchain:** Claude Code, Codex and other CLIs, chosen per task for research, analysis, financial models and documentation.
- **Shipped as code:** references, checklists and models are built as code, versioned on GitHub and deployed as single-file web apps, this CV site included.
- **Connected to real systems:** MCP integrations to the ad platform, Jira / Confluence and meeting notes, so work starts from live data.
- **Where clients feel it:** faster RFP responses, tracking setups QA'd before launch, value models that hold up with a CFO, documentation that stays current.

PROFESSIONAL EXPERIENCE

Global Client Director

07/2026 – present

Adform Germany GmbH · Hamburg

- Own the end-to-end relationship with **global enterprise advertisers** in automotive, consumer technology and consumer goods: commercial terms, account strategy, growth plan and the executive stakeholders on the client and agency side.
- Carry the commercial and technical partnership as one: contract and renewal negotiations, value models, and the roadmap that connects platform capability to the client's media and data strategy.
- Run the accounts on an **AI-native operating model**: a multi-model toolchain (Claude Code, Codex, MCP integrations) handles RFP drafting, QA, analysis and documentation, so time goes to clients and decisions.

Technical Lead, Global Accounts

08/2023 – 07/2026

Adform Germany GmbH · Hamburg

- Operated at the interface of Engineering, Sales and global enterprise clients, translating product capability into client outcomes and trusted technical, functional and commercial partnership.
- **Owned global RFPs and client onboardings end to end**, building future-proof technical setups and orchestrating launches across every stakeholder involved.
- Architected client site and tracking infrastructure with privacy at the forefront (clean rooms, third-party ad servers, DMP / DSP / SSP); owned tagging and pixel implementation so first-party data is activated across channels.
- Prepared brands for a cookieless market using 1P, 2P and 3P data, and designed the multi-touch attribution that feeds annual Media Mix Modelling.
- **Led complex, multi-team projects:** risk, prioritisation and delivery, while directing and developing team members toward shared objectives.
- Ran value workshops and financial models that quantify the business impact of the in-place tech stack, driving product adoption, reduced media waste and account growth.

Solutions Consultant · Senior Solutions Consultant

04/2022 – 08/2023

Adform Germany GmbH · Hamburg

- Led technical account management for enterprise clients: scoping integrations, resolving platform issues, and partnering with sales on technical and functional needs assessments.

Senior Solutions Specialist

11/2021 – 03/2022

Adform Germany GmbH · Hamburg

Part-time Associate (MBA Candidate)

01/2020 – 10/2021

pilot Hamburg GmbH & Co. KG · Hamburg

- Built reach and Gross Rating Point (GRP) measurement frameworks and ran ROI and performance analysis across Adform, The Trade Desk, Flashtalking, Nielsen DAR, MOAT, Google Ads and Meta Business Manager.
- Onboarded new hires on ad serving, measurement and pixel mechanics and the relationships between core performance metrics (reach, frequency, viewability, CPP, CTR).

Senior National Account Manager

01/2018 – 09/2019

Procter & Gamble · Istanbul, Turkey

- Owned **€10M turnover and €3M trade budget** across P&G Fabric & Home Care with a leading grocery retailer in Turkey, accountable for organic sales, merchandising and trade digitalisation.
- **Grew organic sales 26% against a 2% target** through portfolio and promotion strategy built around shopper behaviour; lifted display share +6.2 pts and shelf share +2.1 pts year on year.

Account Manager

09/2015 – 12/2017

Procter & Gamble · Ankara, Turkey

- Managed €5M turnover and €1M budget across four customers in 11 cities; drove the largest customer's P&G value share to an all-time high (+2.5 pts YoY).

Earlier

2012 – 2015

Business Development Intern, Deutsche Bahn Schenker Rail (Berlin) · PEP Intern, Mercedes-Benz / Daimler (Istanbul) · HR Management Consultancy Intern, PwC (Istanbul)

EDUCATION

2019 – 2022

Master of Business Administration (MBA)

Hamburg School of Business Administration (HSBA) · Major: Digital Marketing & eBusiness, specialised in third-party cookie deprecation.

2010 – 2015

B.Sc. Mechanical Engineering

Istanbul Technical University · Major: HVAC systems.
